Are you for Compensation? Everybody is for it. How much does it help the boys if you cannot vote because you failed to register?

South Hays is growing by leaps and bounds. There are changes almost over night that even puzzle some of our best citizens. One of Hays' contractors who was working on a job in Southeast Hays, came down early one morning this week—we don't think he had been boozing—and couldn't locate his work. He had to inquire of a citizen where a certain building which he had been working on, was located. How's that for the building push?

Many autoists seem to forget the danger they are in when they leave their car on the street at night without lights burning. The automobile law provides that anyone leaving their car at night on any road or street without their lights burning, shall not have any right to collect any damages if their car is run into and damaged. This is a common habit in Hays and has already cost several unnecessary repair bills.
